GOT A PROJECT?
GET A FLIGHT PLAN.

YOUR PROJECT IS READY FOR TAKEOFF AND EXPECTATIONS ARE HIGH.
THE SKY LOOKS CLEAR, **BUT ARE THERE STORMS AHEAD?**

STAY ON COURSE WITH
PAPERCUT
Project Monitoring

LIKE AN AIR TRAFFIC CONTROLLER, **PAPERCUT** CLEARS THE LINES OF COMMUNICATION AND KEEPS A STEADY EYE ON THE RADAR – STEERING YOU AROUND THE OBSTACLES THAT CAN BECOME SERIOUS PROBLEMS.

PROJECT PRE-FLIGHT //

Map your journey to success with an effective and accurate flight plan:

- Identify all necessary tasks from the beginning
- Assess risks and potential trouble spots that could otherwise stall or derail your project
- Establish a realistic budget and timeline

The skies are unpredictable. Papercut adjusts your flight plan accordingly.

PROJECT PILOTING //

Save time and money by steering around the storms, not through them. Papercut is the experienced captain who navigates safely through turbulence, keeping your project on track with services that:

- Identify threats and offer solutions
- Survey multiple projects simultaneously, to assess the impact of actions in advance
- Track finances, schedules and who's doing what
- Provide weekly status reviews to ensure milestones are reached
- Manage human elements, such as illness, staff changes and motivation

With Papercut, you can focus on the destination without losing your way.

PROJECT RECOVERY //

Project in a tailspin? If you've stalled mid-flight, your project can likely be salvaged. Papercut clears your project for landing with a plan that:

- Identifies the value in what's already been done
- Redefines your goals, budget and timeline by identifying what's important now
- Repairs damage to team morale & rebuilds trust
- Identifies where things went wrong, to avoid future mistakes

Navigate projects safely no matter where you are in the process with proactive, responsive solutions from Papercut Project Monitoring.
